

## Environmental Policy

We are committed to working responsibly to reduce the impact our organisation has on the environment. In line with our values, Masterlease will provide the time, enthusiasm, support and resources to:-

- Comply with all applicable environmental regulations and legislation, and other requirements which relate to our environmental aspects
- Ensure that all employees are aware of the environmental impacts of their actions and have opportunities to become involved in helping us fulfil our environmental objectives
- Promote improvements in energy efficiency, use of resources and recycling
- Keep abreast of environmental trends in our industry and beyond
- Consider the legislative awareness and environmental performance of our suppliers and partners, and promote joint improvement activity
- Provide our customers with advice and guidance on the environmental aspects of managing their fleets and the options available for managing environmental impacts
- Continually improve our environmental performance, including waste reduction and the prevention of pollution
- Meet the requirements of the Environmental Management Systems standard 14001:2004

Masterlease will incorporate the Environmental Policy into day-to-day operations through the development of appropriate processes, objectives and targets and through regular reviews.

It is the responsibility of all employees to support and uphold this policy.

Peter Tatlock  
Managing Director
